Skookumchuck Madrona Burl Cocktail Table

A showstopper of Jonathan Charles Water portfolio, the Skookumchuck cocktail table stands apart from a world of standardized choices. Inspirational design elements lead with a butcher block top and sides honed from mesmerizing Madrona burl slabs finished in smoke gray. Understated metal accents along the base and ridges are finished in satin white brass for a delightful contrast and shimmering lightness. With an alluring surface and strong forms, Skookumchuck is sure to captivate audiences in contemporary interiors.
