Moderne Chandelier

Joining our wall sconces in the Moderne family is the Moderne Chandelier in luminous gold and crisp white finishes. Designed by Tom Caldwell, the uber-modern white chandelier has a hand formed sheet-metal structure. "Its diffusers are designed to direct the light source upward so it can reflect off of the ceiling and create a warm glow around the room where it is located," Tom remarks. "We chose a gesso white finish for the exterior that is accented with a warm contemporary gold leaf on the interior of the diffusers." We offer the Moderne sconces in black and white versions.
