Queenbee Palm Wall Sconce

In the Aviva Stanoff Collection, the Queenbee Palm Wall Sconce pays homage to the graceful movement of palm leaves blowing in the wind. The leaves in a contemporary gold leaf finish wrap around an off-white fabric shade. Stanoff says the design was inspired by the places she associates with calm, with resetting and with recharging: beachy, ocean, tropical places. “When I see these gorgeous palms and their fronds rustling gently in the wind, it reminds me there is grace in resting, in going with the flow, and in letting the wind blow you around until you, most importantly, settle.” We also offer the Queenbee as a pendant and a chandelier.
