Bel Canto Nickel Wall Sconce

At first glance the Bel Canto Nickel Wall Sconce has few distinctive design elements but a longer look brings the raised circlets of metal near the light source and at the point where the stem attaches to the wall-plate into view. There's also a hint of one as the narrowing point of its body reaches its culmination as gracefully as an opera conductor's wand. The silver wall sconce is made of metal in a polished nickel finish, and is ADA compliant and certified for damp locations. We also offer the Bel Canto in antique brass and oil-rubbed bronze finishes.
