Terre d Argile Medium Vase

The Terre d'Argile Medium Vase has a vintage appeal achieved in terracotta. Not only does the shape feel as if it was born in another time, the mix of natural and black finishes provide the rust vase with patina. The added dimension to the surface is the fact that the black has been applied to the bottom only, a surprising move that makes this vase special. We also offer the natural terracotta version of the Terre d'Argile in a large size, and we have large and medium vases in a mix of ivory and gold finishes.
