Thanos Marble Bust Sculpture

Creating the feel of flowing fabric from marble is a feat, as is evidenced by the Thanos Marble Bust Sculpture. Carved from different types of Italian marble, the Roman bust was inspired by the antiquity period of that great empire. The style of the base on which the bust sits is aesthetically in keeping with an antique sculpture. The colour of the marble that makes up the clothing on the gold sculpture will make it a focal point in a room.

Thanos Marble Bust Sculpture

A2 1200-0664

Dimensions

520 X 260 X 695MM HIGH

Status

NOT IN STOCK
