Imperial Green Temple Jar

The Imperial Green Temple Jar is a decorative green vessel that has its roots far in the past. The Imperial label is apropos for the porcelain vase because this piece is made of clay sourced from the area surrounding the kilns that produced objects for the Imperial estate during the heyday of the dynasties. The formulas to achieve the particular green on this vessel's surface is a secret one guarded by ceramicist families devoted to the single colour. The deep green hue was originally produced exclusively for those in high society.
