Glazed Masks Set of 3

The Glazed Masks Set was created by Thai artist Arjan Deng, who is known for his one-of-a-kind ceramic statues of emotionally evocative faces. This is his interpretation of a trio of characters: a male in the center flanked by two slightly smaller females. The faces sitting atop black iron bases have assorted glazes on them so each will vary from piece to piece, which makes each set unique. The tan sculptures will be whimsical elements in a space.

Glazed Masks Set of 3
