Faux Bois Bird Bath

In the time-honoured artistry of French faux bois, the base of the Faux Bois Bird Bath is fashioned to resemble an aged tree that gracefully angles up to its top bowl to convince the eye that nature created it. Durability is built into this concrete bird bath's DNA. The Portland finish that settles into the natural crevices enhances the illusion of age, which will bring a nice hint of texture to outdoor settings. With this piece, the top ships separately from the pedestal.
