Arden Ivory Chest

The Arden Ivory Chest is inspired by a 1970s reverse-painted glass antique our director of furniture Aimee Kurzner found at the Paris flea market. The chest features ivory reverse-painted glass panels on the top, front, and sides with solid brass trim, hardware, and legs. The ivory and gold chest has a bevelled top, and drawers with soft-close glides. The Arden family of furnishings includes several beautiful pieces in pink and in ivory.
