## Evie Shagreen Accent Table

The Evie Shagreen Accent Table has a sophisticated appeal that goes hand-in-hand with the textural beauty of shagreen. It is made of mahogany in a dark walnut finish that is topped with wood-framed panels on the sides and top covered in ivory faux shagreen. It sits atop a plinth. This pedestal was designed by our director of furniture Aimee Kurzner, who was inspired by vintage shagreen furniture from the 1920s when she envisioned the pieces.
