Las Palmas White Armchair

A kicky take on the palm motif, the Las Palmas White Armchair designed by Marjorie Skouras is every hostess's answer to a contemporary coastal chair that will serve as stylish seating in any number of spaces. Made of wrought iron, the white chair is one of Skouras' pieces that reflects her passion for the Yucatan. The surroundings in which she lives and through which she translates the flora and fauna into dynamic products in her studio, shine in this metal chair in a crisp gesso white finish.
