Barbican Double Light Nickel Wall Sconce

The Barbican Double-Light Nickel Wall Sconce has a tubular stem that balances cup-like shapes into which translucent glass globes nestle. Also meant to keep the design minimal is the button-like hardware that Ian Thornton designed to be as streamlined as possible. This silver sconce is included in our Bagno Collection of damp-rated lighting that is designed specifically for bathrooms. The Barbican can be mounted sideways to fit over a mirror.
