Mister M Red Table Lamp

Tom Caldwell calls the Mister M Red Table Lamp a modern version of a traditionally shaped urn. "We've cleaned up the lines and eliminated much of the detail which would have been prominent on the traditional piece," he explains. "The red lacquer finish is accentuated with a black lacquered parchment shade. The combination of clean lines, bright contrasting colours, and great scale makes the piece a real statement item." There are a number of accessories and lamps in this family of products, all inspired by Piet Mondrian's colour palette.
