Jocasta Red Table Lamp

The Jocasta Red Table Lamp is a classic shape in a surprising material. Made of clear red glass and metal in a brass finish, the luminous piece will bring a pop of colour into a space whether the red table lamp is switched on or not. A design detail of note is how beautifully the glass base fits into the brass ring that connects it to the body, one that illustrates the talent of our glass artisans. We also offer the Jocasta in a green version.
