## Waine Table Lamp

Tom Caldwell says of his design for the Waine Table Lamp, "This piece is intended to be used on a console table or nightstands. It features a thin profile which will allow it to be placed close to a wall. If used as a bedside lamp, it will allow for lots of additional room on the tabletop for other necessary bedside items. It is made from iron in a bronze finish. The base is optic crystal and the shade is also iron in a glossy black finish; the triangular shape of it very unique
