Mister M Red and Blue Disc Table Lamp

The Mister M collection of products, which includes the Mister M Red and Blue Disc Table Lamp, pays homage to the fabulous colour combinations used by the painter Piet Mondrian, the Mister M after whom this family of accessories and lamps is named. Made of wrought iron and concrete in powerful hues of blue, yellow, red, and black, the multi-coloured table lamp joins the other products in this collection in making a strong statement of modernity and primary colours, including a sister disc floor lamp.
