Hyson Table Lamp

A composition of natural horn and wood, the Hyson Table Lamp is at once modern and primitive. The clean-lined columnar shape of the body puts the brown table lamp in the contemporary category while the graining in the natural wood, the texture of the chiselled bone, and the highly textured natural linen drum shade concocts the ruse that it is a vintage piece. The hardware and finial in a brass finish add to the warmth of the Hyson.
