Temptress Table Lamp

Made of natural pink wonder marble in a warm oxblood colour, the Temptress Table Lamp has a tone-on-tone texture that makes the turned profile look as if it might be an antique, or, at the very least, a vintage piece. Because the maroon table lamp is honed from a solid block of stone, the surfaces will vary from lamp to lamp. Contrasting the dark marble is hardware in a polished nickel finish. The light natural linen drum shade is held in place by a marble finial that matches the body of the lamp, which was designed by Clarence Mallari.
