Hastings Natural Table Lamp

Hollywood glamour never looked as fresh as it does on the Hastings Natural Table Lamp, designed by Tom Caldwell.

Made of finely crafted wood elements that have been left natural to highlight the woodgrain and give the surface an antiqued effect, the teardrop-shaped beige lamp has warm steel accents in an antique nickel finish that heighten the design's elegance. The way the off-white linen shade mimics the flare in the footed base is a refined aspect of the design.
