Varenne Black Table Lamp

The design of the Varenne Black Table Lamp was conceived by Frederic de Luca, a famous gallerist who opened the ultra-
iconic store En Attendant les Barbares in Paris during the
1980s. The tall shade is indicative of what would have been a
vintage shape from the '60s and '70s at that time. Made of cast
aluminium in a matte black finish, the shapely lamp has de
Luca's name etched on the back near the cord.
