Salizzole Table Lamp

A Milano-inspired creation, the Salizzole Table Lamp has a profile that calls to mind the incredible era of Italian design when both furnishings and fashion were breaking all the rules and changing them forever. Made of composite in a white finish, the morphing shapes on the lamp's body make this an illuminated sculpture that will be a conversation starter in any space. A shapely accessory, the white table lamp will enliven interior styles from mid-century modern to ultracontemporary.
