Cromwell

Pierrepont Small Blue Pendant

The Pierrepont Small Blue Pendant is made of wrought iron with a Hiroshi dark blue finish on its exterior and a contemporary gold leaf finish on the interior of its shade. The rolled edges of the rings connecting them, at the top and bottom of the pendant, gleam in a gold finish and are sophisticated details that bring an uptick in style to this handsome fixture. When simplicity is the aim, the Pierrepont will fit right in given the clean lines of the fixture's profile and its hanging hardware.
