Bismarkia Large White Chandelier

The Bismarkia Large White Chandelier was inspired by the noble Bismarkia palm, whose fronds are remarkably large. Marjorie Skouras, who designed the chandelier, has stayed true to her love of nature for this creation. Her passion for the Yucatan, the surroundings in which she lives and through which she translates the flora and fauna into dynamic products in her studio, shines in this steel fixture covered in a crisp gesso white and white finishes. The spiky ornamentations that splay around the 13 lights bring immediate texture to a space.
