Riviere Pendant

Imagining what he could design that would become the undisputed jewelry in a room, Ian Thornton created the Riviere Pendant. First, he chose a regal diamond shape, and he finished the wrought iron in a contemporary gold leaf. He fitted the metal ribs with composite strips that catch the light from the integrated LED strips to make them glow

Riviere Pendant
A2 9000-1156

Dimensions
330 X 330 X 572MM HIGH

Status
NOT IN STOCK
