Pointe Lounge Chair

The Pointe Lounge Chair with a natural teak frame and raffia seat is built for worry-free enjoyment given the eco-friendly and weather-resistant attributes of marine-grade teak and UV-resistant resin wicker from which it is made. Inspired by mid-century modern design, the outdoor club chair has solid teak frames with mortise and tenon joinery. The subtle curves and shaping on the arms set the patio lounge chair apart. The cushions are available in Dream only.
