Channel Back Dragonfly velvet Sofa

Custom designed by George Sellers, our Channel Back sofa is distinguished by deep channels of stitched, 100% cotton, dragonfly blue velvet around the back support. A beautiful wooden base supports the sofa and is accentuated along the bottom edge with a filet of solid brass running around the entire frame of the sofa. Elegant shapely legs and frame are finished in a dark waxed oiled walnut finish. Another distinctive characteristic of this sofa is the arching back shape, as elegant and visually beautiful from the front or back.
