## Neutrals Mirror Match Marble Rug

Screen printed bamboo silk rug with motif of mirror matched marble. Marbled rug print is cut at 90 degree angle and then formed together to create a full sheet, make these wonderful marble mirrored appearance joints. If the four quadrants are put together to form a rectangle, the results are stunning with the continuation of the pattern appearing in the centre like a Rorschach test pattern. Very unique and 'now' in design and feel.
