Royal Kahala Bistro Table

Royal Kahala Black Sands by Tommy Bahama. The convertible Bistro Table with its graceful scroll patterns in two distinct designs create an elegant surface on the bistro table top. The scroll design is repeated on the backs of the stools creating a refined, cohesive look. The bistro base includes a decorative spacer, designed to insert between the underside of the top to add six inches, therefore making it high or low, accommodating the bar or counter stools. Consists of 3235-873CT and 3235-873BB.
