Watermill Sofa

The Barclay Butera Watermill series showcases traditional roll arm styling with the transitional look of a 2-seat cushion configuration. It is shown on the sofa in a raffia textured fabric on the body with contrasting seats, back cushions and throw pillows, giving it a fresh coastal look. In an all-over fabrication, the look can be taken in a decidedly traditional direction. Four standard throw pillows on the sofa offer the opportunity to layer additional patterns and colours to the room.
