Charleston Sofa

Another Barclay Butera creation, the Charleston shelter sofa displays bespoke tailoring, with deep button tufting on the inside arms and back. The graceful splayed arm design features crisp pleating, and a single bench seat cushion highlights classic styling. Railroaded fabrics are recommended for this sofa design in order to avoid seaming in the seat cushion. The tall kick-pleat skirt offers the opportunity to add decorative tape options and four standard throw pillows are perfect for adding layers of complementary patterns and colours.
