

Cromwell

Sheffield Cocktail Ottoman

The Sheffield cocktail ottoman blends the functionality of additional seating with the opportunity to layer more textiles into the design of a room. The design is standard with spaced nail head trim. When choosing your fabric, be aware the spot points are the four rounded corners with the seam in the centre of each panel creating a four quadrant surface. In addition to custom fabrics the silhouette is offered in an exclusive leather correlation identified with an (AA) suffix or in an exclusive fabric correlation identified with a (CC) suffix, and also available in custom leather LL5450-25.
