Spencer Buffet

Cypress Point Spencer Buffet. The inverted v-match veneer on both pairs of doors offers a fresh design to this case piece and resembles the dining table tops. Behind each pair of doors is a felt-lined drawer, two adjustable shelves, and grommets for cord management. The right-side drawer is divided for silver but you can interchange between the drawers to your preference. The drop-pull hardware has an open slat to lighten the visual impression and is finished in the burnt sienna coloration.
