

Cromwell

Macarthur Park Highview Media Console

Elegant, attractive, and functional, this console will become the centre of attention with its warm mocha brown Walnut veneers. The elongated tab pull sits within the brushed stainless inlays on the two doors and the two full-extension self-closing drawers in the centre are easily accessible from underneath. The centre area features a glass shelf and there are two wooden shelves behind each door, all shelves are adjustable or removable. The plinth base suggests a sure foundation while the top surface appears to float -- evidence of the blending of contrasting styles.
